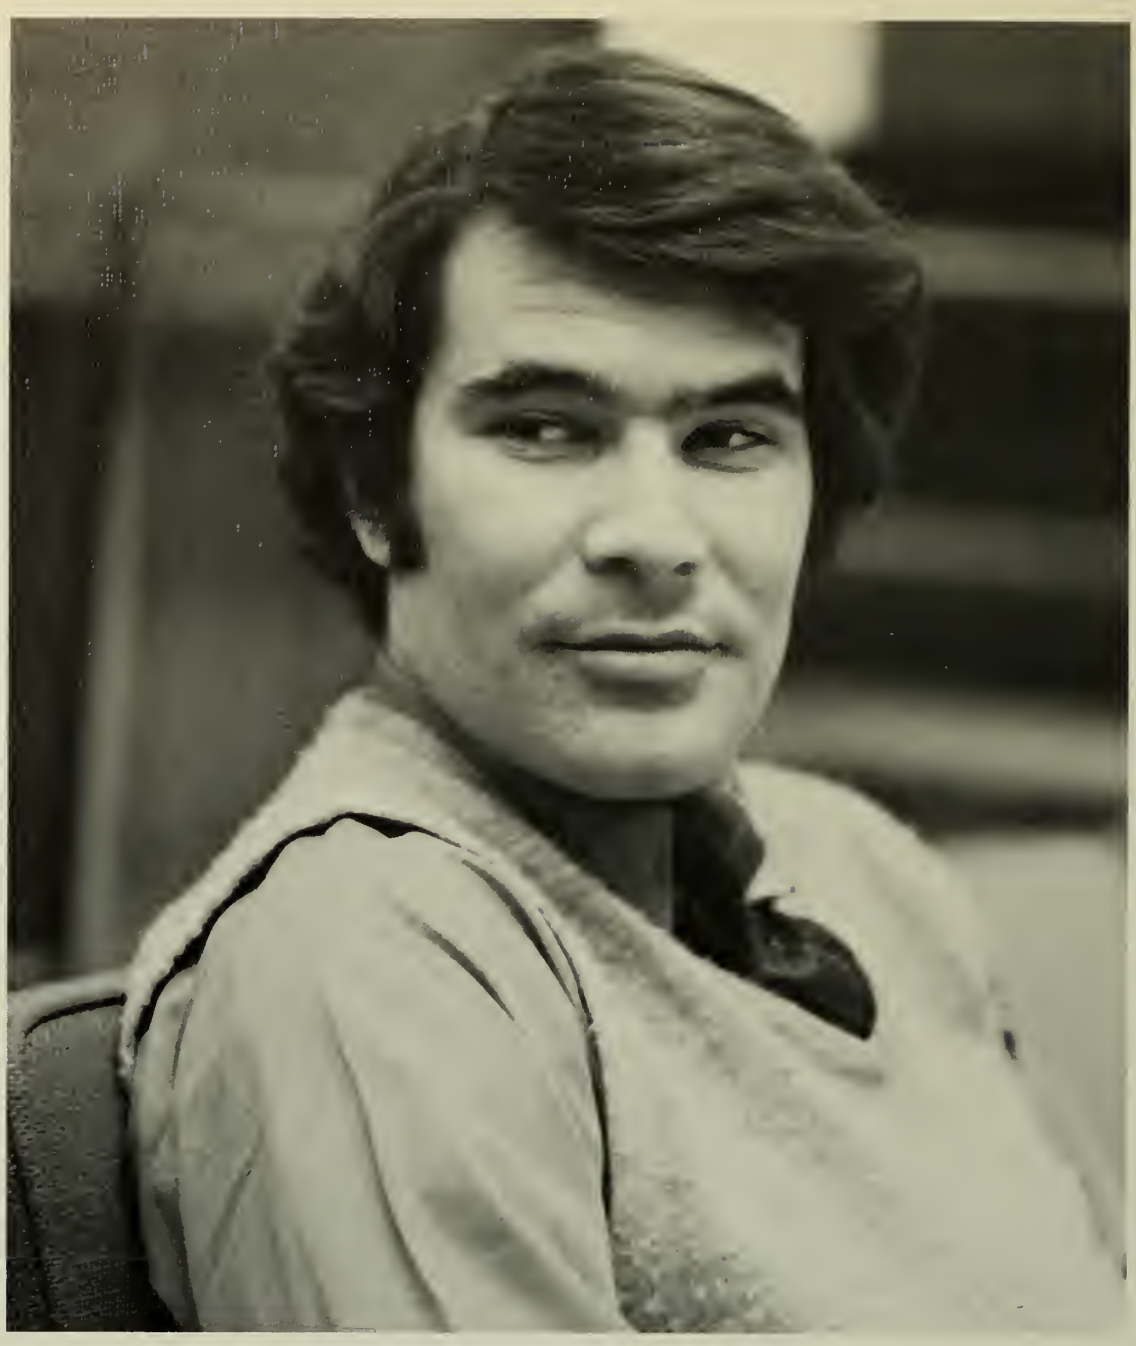
THE HAHNEMANN GIRL
(with apologies to the Muses.)

MEDIC

1973

A YEARBOOK
OF THE
CLASS
OF
1973
HAHNEMANN
MEDICAL
COLLEGE
PHILADELPHIA



This is the space that an editor usually takes to talk about the yearbook. A yearbook — what the hell is a yearbook? I'm not about to start to talk dirty but I've been carrying around this question for a long time now. What is a yearbook? What is it for? What should it do? If I could have answered these questions easily probably the book would have been a year early instead of a year late.

I set an impossible task of trying to represent what it *felt* like to be at Hahnemann the years we were here. We began with Moratorium day, Earth day, Kent State and finished with the scandals known as Watergate. While turbulence prevailed outside, our curriculum was ad-lib compared to those who came before and those who will come after.

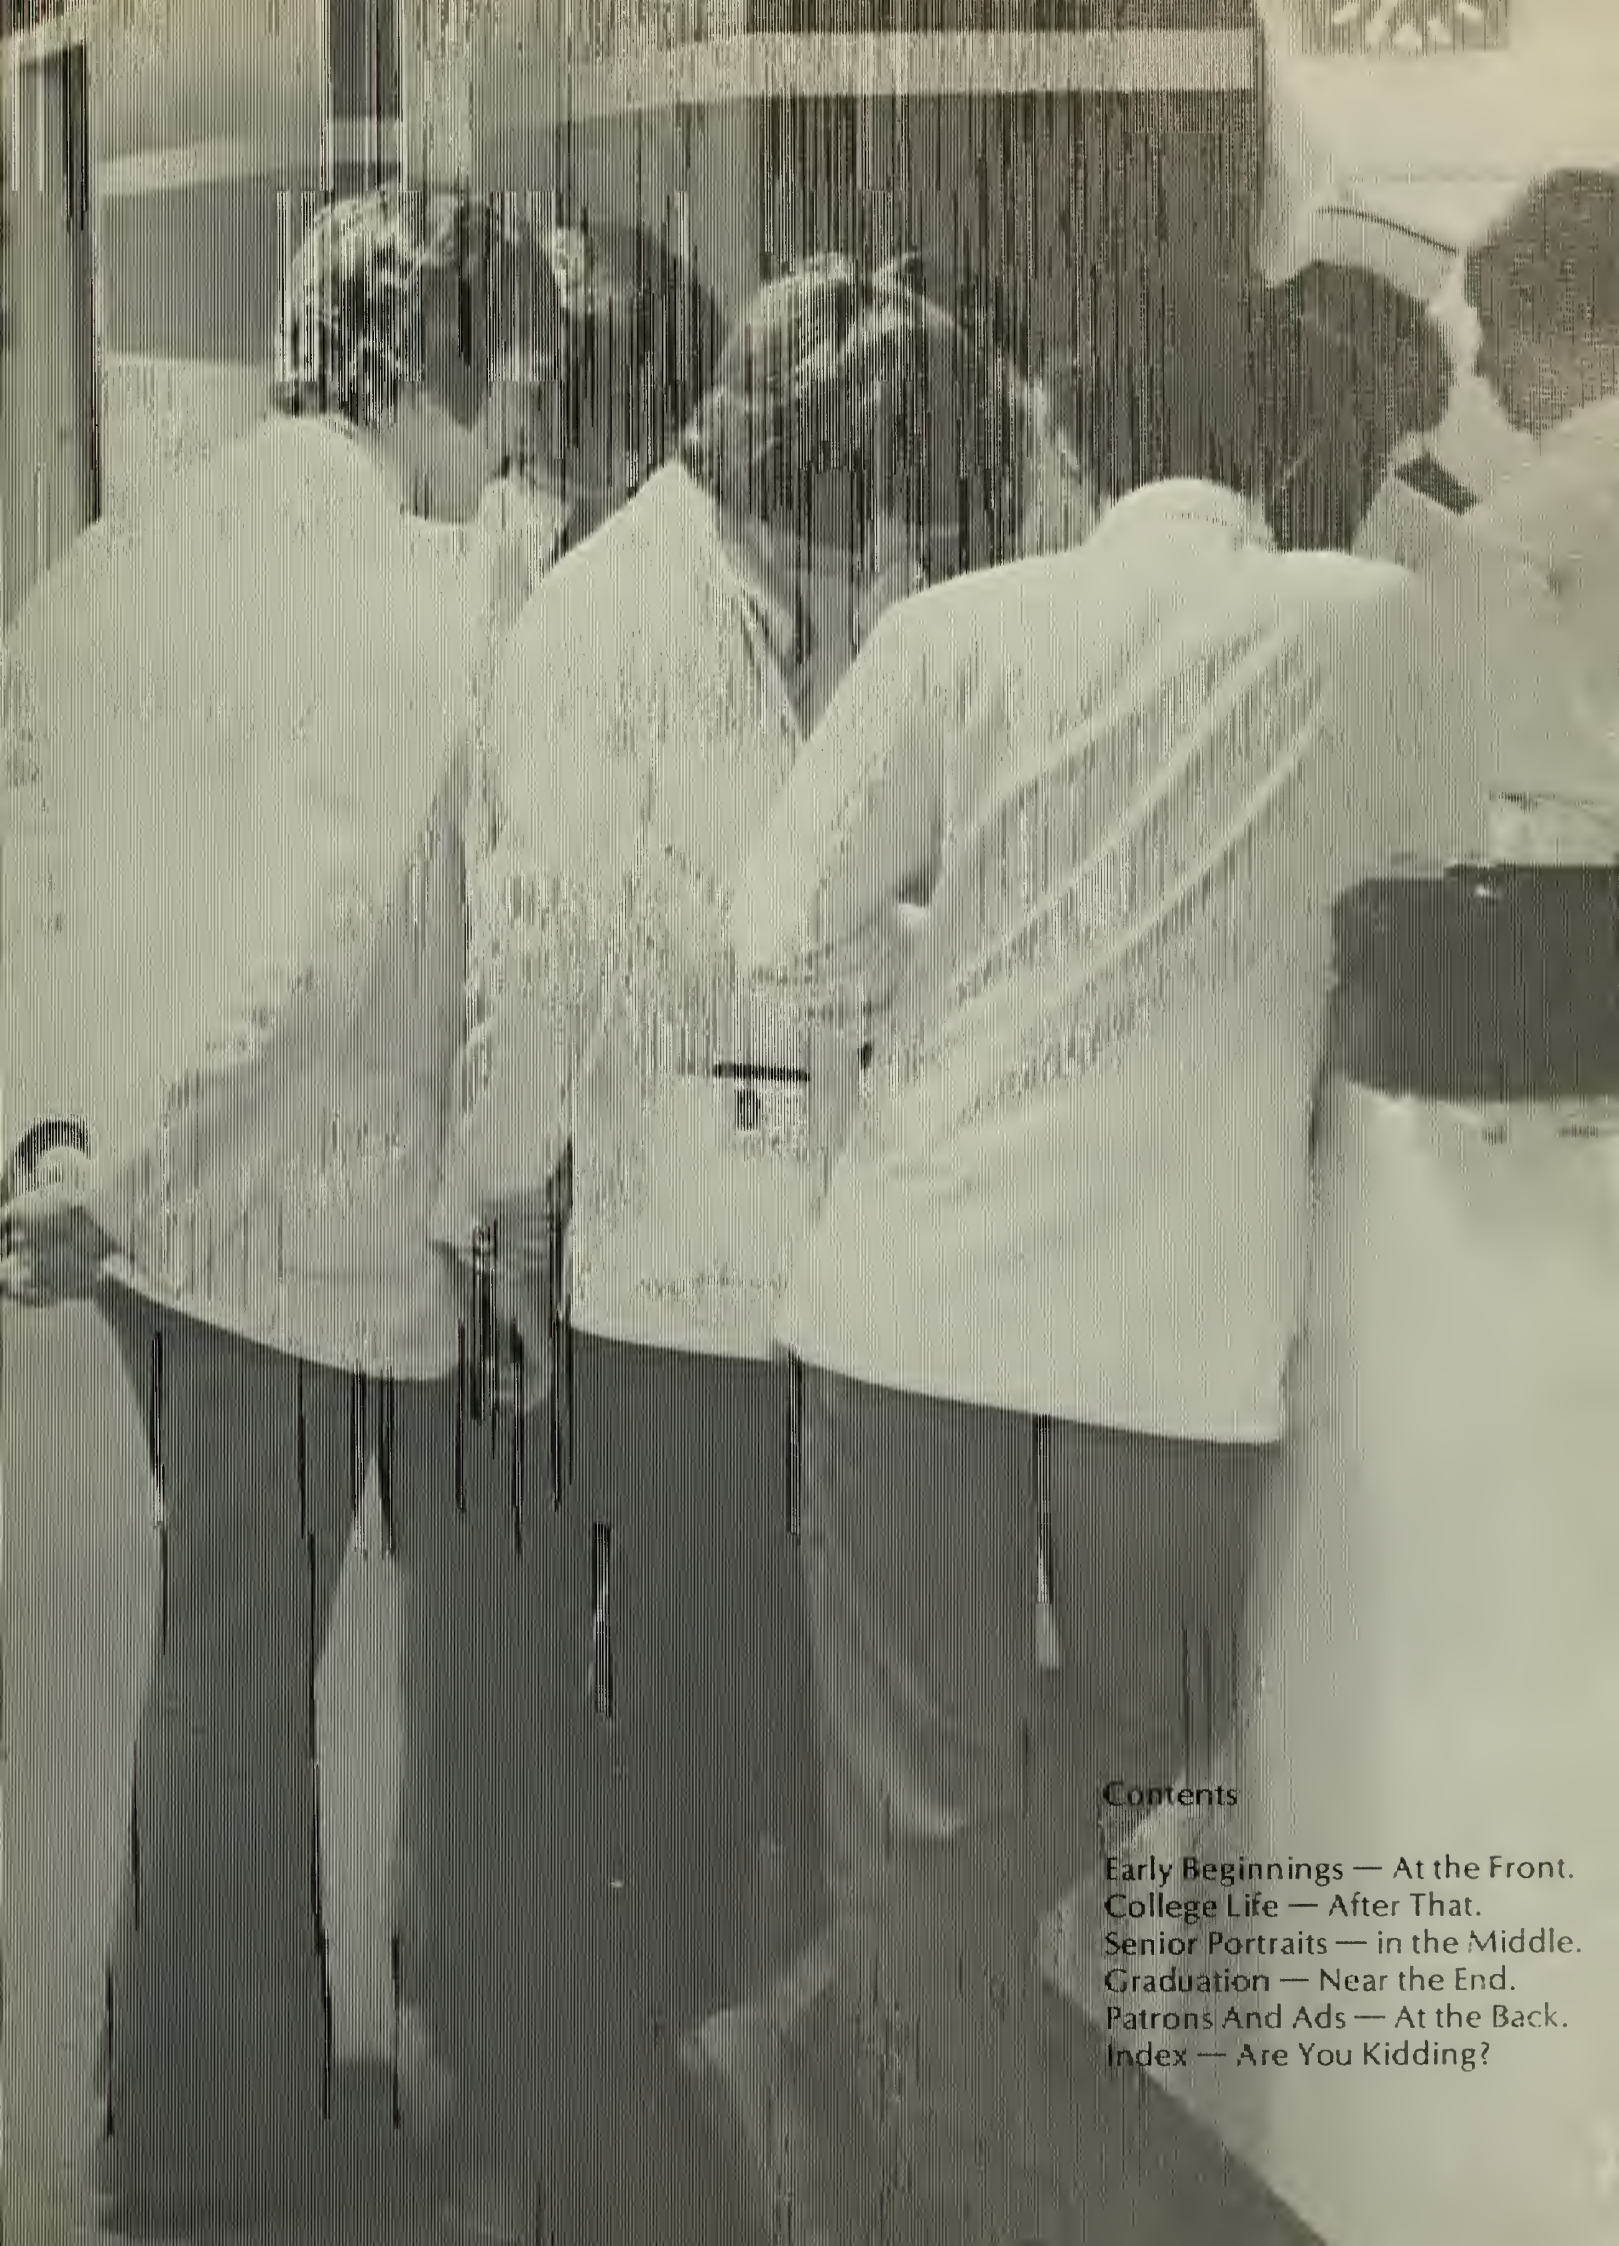
So I set upon this task and wound up with nearly a thousand pictures. A thousand! You can't put all those in one book.

Actually the book is not for today. It's for the future. A memory of the past. There are many pictures, very few words and a feeling that will grow with the passing of time.

By the way, most of the thousand pictures couldn't fit. I've still got them so look me up and we'll go through them.

I hope this book is worth the wait.

Richard Harlan Kaplan
Editor



Contents

Early Beginnings — At the Front.
College Life — After That.
Senior Portraits — in the Middle.

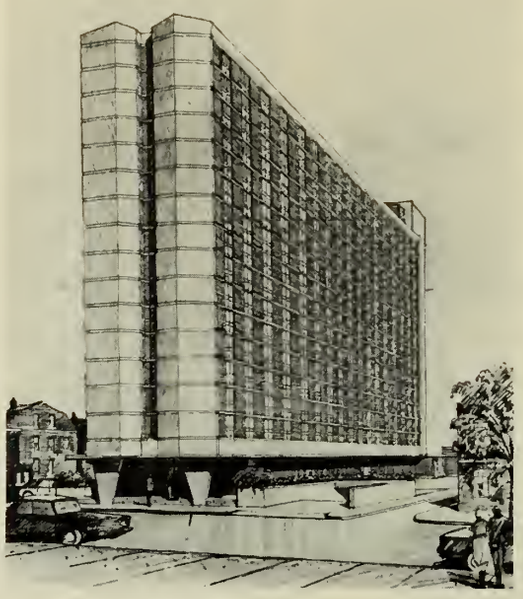
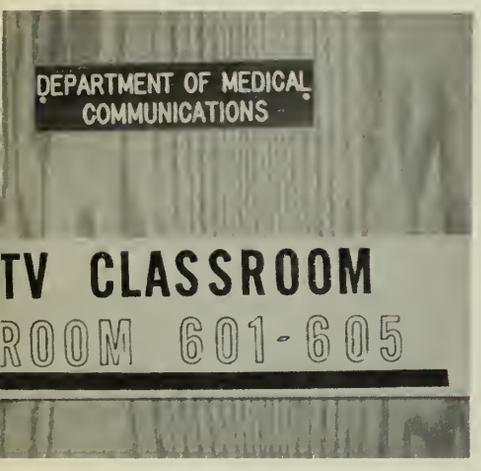
GREATER HAHNEMANN—APRIL, 1928

. . . from the 1928 yearbook.



HAHNEMANN COLLEGE MEDICAL LIBRARY

Try to find this sign.



Bull session in library.

HAHNEMANN MEDICAL COLLEGE AND HOSPITAL
BROAD STREET, ABOVE RACE, PHILADELPHIA, PA.
ESTABLISHED 1848.

The Fifty-Ninth Annual Session will begin on Monday, September 24, 1906, and continue until May 31, 1907.

2851 GRADUATES

The Curriculum embraces every important branch of medical science just such as are included in the course of instruction in all the best-equiped medical colleges of the country. In addition, the college is aggressive in the teaching of Homœopathy. Special attention is given to the Materia Medica of Hahnemann, and the additions made thereto by Hering and other co-impetent investigators, and a corps of experienced teachers are entrusted with the duty of elucidating and demonstrating the principles and efficacy of homœopathic practice in the lecture room and clinic. Each student is expected to pass as satisfactory an examination on the principles and practice of Homœopathy as on all the fundamental branches of the ordinary medical curriculum, and the successful graduation candidate will have conferred upon him not only the degree of "Doctor of Medicine," as usually understood, but the degree of "Doctor of Homœopathic Medicine" also, the college being enabled to confer both degrees by the provisions of its charter granted by the Commonwealth of Pennsylvania.

Recording Resistance Thermometer for Gastero-Intestinal Research

THIS apparatus has been used by Drs Harry M Eberhard and Joseph S Hepburn in collaboration with Drs Rowland Ricketts and Charles L W Rieger, for the measurement of the temperature of the stomach, upper intestine, and sigmoid, and the study of the influence on gastric temperature of hot and cold foods, and the influence, on both gastric and duodenal temperature, of such factors as the hot water bottle, electric pad, diathermy, infra-red lamp, and ice bag. A report on these researches will be presented at the annual meeting of the Federation of American Societies for Experimental Biology in 1932

HAHNEMANN.

TUNE: "Annie Lisle."

Our strong bond can ne'er be broken,
Formed in Hahnemann,
Emblem of a wealth unspoken,
Borne through life's long span.

REFRAIN.– We will ever sing together
Songs of loyalty
To our well loved Alma Mater,
Hahnemann, to thee.

College days will soon be o'er,
Gliding swiftly by;
E'er thy cause will be defended
By our constancy.
REFRAIN.—We will ever, &c.

As we pass down life's long pathway,
Ever may we be
True to all thy noble teachings,
Homœopathy.
REFRAIN.—We will ever, &c.

BRUCE VISCHER MacFADYEN

Mac

Mac, born on March sixth, brought the balmy spring of 1904 with him, and Philadelphia should long remember this date. He is the son of Walter Scott MacFadyen, M.D. (deceased), and the former Anna Stephenson. His father was a graduate of this institution of the class of 1893.

He went first to the Germantown High School and from there entered the Hahnemann School of Science, which school gave him a B.S. degree. At Hahnemann he became a member of the Phi Alpha Gamma Fraternity. Other than this he is a member of the Protestant Church and of the Republican Party.

Little more information have we to impart except that Mac lives at 1520 Spruce Street, Philadelphia, and will intern at the Pittsburgh Homeopathic Hospital. Perhaps Mac is wise not to plan too far ahead.

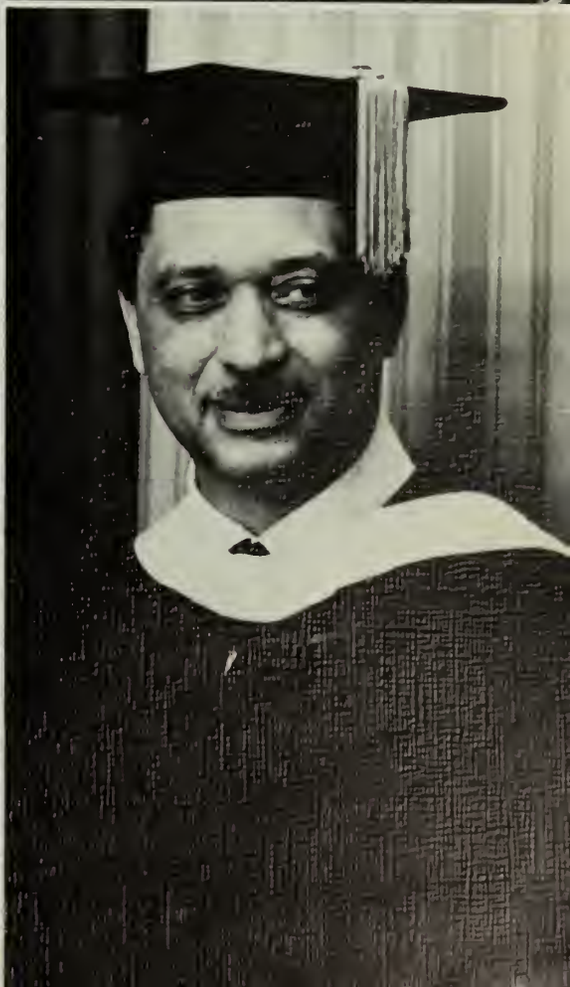
GRADUATION Finally Something Wonderful.
Finally? How Long Ago Does It Seem Now?

Seal of the North American Academy of the Homeopathic Healing Art—1835



Since the days of Hippocrates, our father, the aphorism has been the literary vehicle of the doctor ... Laymen have stolen the trick from time to time, but the aphorism remains the undisputed contribution of the doctor to literature.

Howard Fabing

Never believe what a patient tells you his doctor has said.

Sir William Jenner

It is our duty to remember at all times and anew that medicine is not only a science, but also the act of letting our own individuality interact with the individuality of the patient.

Albert Schweitzer

Make it a rule never to be angry at anything a sick man says or does to you. Sickness often adds to the natural irritability of the temper. We, therefore, bear the reproaches of our patients with meekness and silence.

Benjamin Rush

Let your entrance into the sick room decrease, not increase, the irritability of your patient.

Martin H. Fischer

I have often remarked that though a physician is sometimes blamed very unjustly it is quite common for him to get more credit than he is fairly entitled to; so that he has not, on the whole, any right to complain.

James Jackson

Physicians are many in title but very few in reality.

Hippocrates

There are only two sorts of doctors: those who practice with their brains and those who practice with their tongues.

Sir William Osler

It is a good thing for a physician to have prematurely grey hair and itching piles. The first makes him appear to know more than he does, and the second gives him an expression of concern which the patient interprets as being on his behalf.

A. Benson Cannon

It is because we have begun to act like merchants, and in many instances to observe the same hours, that the public expects us to be regulated by the same restraints.

John L. McLenahan

The best of doctors will go to hell.

The Talmud

The efficient physician is the man who successfully amuses his patients while nature effects a cure.

Voltaire

Don't refer a patient to a psychiatrist as if you are telling him to go to hell.

Walter Lincoln Palmer

Forty years of teaching have taught me this: that it is relatively easy to become a competent specialist, but it is much more difficult to become a good doctor — and it takes much longer.

William Doolin

A doctor must work eighteen hours a day and seven days a week. If you cannot console yourself to this, get out of the profession.

Martin H. Fischer

Fortunately analysis is not the only way to resolve inner conflicts. Life itself still remains a very effective therapist.

Karen Horney

When in doubt — PUNT!
